SUMMARY

Motivated and driven software developer with experience in software development and database management. Proficient in a range of programming languages, including PHP, SQL, Java, and Python. Strong problem-solving skills, with a focus on delivering efficient, scalable software solutions. Seeking to leverage technical expertise and pursue continued professional growth in a software engineering role.

WORK EXPERIENCE

Intern, Office of the Senior Citizen's Affairs, Danao City Government   **Feb 2024 - May 2024**

- Supported senior staff in daily office operations, including managing senior citizen applications and facilitating the release of IDs and medicinal discount booklets.
- Encoded senior citizen forms into the national online database, ensuring accuracy and timeliness.
- Developed and implemented an autohotkey script to streamline the encoding process, reducing redundancy and improving efficiency by 70%.
- Performed basic troubleshooting and maintenance of office equipment and software.

EDUCATION

Bachelor of Science in Information Technology   **2020 - 2024**
Cebu Technological University - Danao Campus

- Major in Programming
- Cum Laude

TECHNICAL SKILLS

- Programming Languages: Basic knowledge of Java, Python, PHP, C#, and SQL
- Database Management: Basic understanding of relational databases and SQL queries
- Web Development: Familiarity with HTML, CSS, and PHP for simple web applications
- Version Control: Exposure to Git and GitHub for managing code repositories
- Problem-Solving Tools: Experience using IDEs like Visual Studio, Eclipse IDE or IntelliJ IDEA

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Willingness to learn and adapt to new technologies
- Effective communication and teamwork abilities
- Attention to detail in coding and debugging
- Ability to work independently and take initiative
- Time management and ability to meet deadlines
- Patience and perseverance when tackling challenges
